The Company

At **BGO software** we make **health digital** by empowering our customers to deliver their digital health products and solutions through **our premium services**.

Our expertise & services

We have extensive background in the development of **clinical research systems, eHealth solutions (web and mobile health applications) and GMP validated systems for pharmaceutical & biotech companies.** We keep adding more digital health solutions to our portfolio constantly.

CTOaaS

Our tailored consultancy service provides the assistance of an **on-demand senior technical leader**, that handles the technology-driven challenges of a project and **manages the engineering team**. Project CTOaaS delivers immediate value, gives the project the required head start, eliminates operational risks and fosters reusability across the company's strategic roadmap.
